

# PANTHER MAXI

Why  
**LOGITRANS?**

[logitrans.com](http://logitrans.com)

Easy access to battery for maintenance

Ergonomically correct handle

Safety stop both horizontally and vertically on the tiller arm

Multiflex function = easy operation

## Less sickness days

The ergonomic design reduces sickness days and gives happier employees.

## Higher efficiency and performance

High flexibility and efficiency - Panther Maxi moves many different pallets in very confined areas both easily and quietly.

## Durability, lifetime

The strong construction with use of quality materials and its round design provide a long operating life and lower maintenance costs.

All electrical pallet trucks will be tested before shipment.

## Flexibility

- Different wheel types.
- Available in a stainless version.
- Tailor-made solutions.
- Many different fork lengths and width.

Low power consumption = long battery life time

Load dependent pressure on propulsion wheel = optimum "road-holding qualities"

Pump unit with special oil = great durability
